

'09 PRINT DEFINITIONS MOUNTING PRICING

LUSTRE PRINTS

All prints contain a lustre coating which provides a sheen that visibly enhances your prints and provides superior protection. The coating protects against fingerprints, UV rays, and typical over-spraying found in home/office environments. This coating provides for a richer, enhanced sheen on prints of every size. Lustre Coating is not available on metallic prints.

BLACK AND WHITE PRINTS

This panchromatic, resin-coated paper is specifically designed for making continuous-tone B&W prints with excellent tone reproduction. Because the emulsion is silver-based rather than dye-based, which offers good sharpness, display and archival characteristics. (These prints incur an additional \$5/print fee.)

PHOTO POP PRINTS

These prints blend together both color and black/white prints. A photo is reversed to black/white ... and then certain areas are 'popped' with color. These prints are referred to as a 'Digital Creation' — which are a 'By Request Only' service. Each image takes approximately 45 minutes to one hour to create; therefore, it is advised that careful consideration be made when making this request.

(These prints incur an additional \$5/print fee.)

SEPIA PRINTS

A sepia tone is a reddish brown monochrome tint. When applied to a photo, it gives the picture a warm, antique feeling.

MATBOARD

Mounting your print on matboard not only gives the print extra support, but it also helps preserve the value of the print over time.

CANVAS PRINTS

Give your prints gallery-level quality with our canvas bonded to matboard. The canvas provides the rich texture for your print and the matboard gives it a sturdy backing that prepares it for framing or other types of display.

SIZES	LUSTRE PRINT	ON MATBOARD	ON CANVAS
5x7	\$ 9	na	na
8x10	\$15	\$25	\$40
12x12	\$22	\$45	\$60
